

Show your face Alex Olivari (Übersetzung Jeannine Howard)

People, just show your face
Wake up and fight, fight for your rights
Let your children run free
Let them breathe, sing, and play, just let them be
People, just show your face
don't be afraid

They are master deceivers and manipulate you
I wonder who is cashing in
They use fear and terror to reign over us
Our world is being torn in two
I guess I just don't understand
Please tell me is there something planned

People, just show your face
Wake up and fight, fight for your rights
Let your children run free
Let them breathe, sing, and play, just let them be
People, just show your face,
don't be afraid

Hey, you up there, are you just that corrupt
Can you even look us in the eye?
People down here are breaking it's just so messed up
They are all alone and then they die
Because you say there is a threat
You lock us up, and there is no regret

People, just show your face
Wake up and fight, fight for your rights
Let your children run free
Let them breathe, sing, and play, just let them be
People, just show your face

And we are many, and we're becoming more and more
Even if they ignore and villainise us
We know what we are staying for

Take each other by the hand
Come closer together, let's take a stand
Don't let the censors quiet you
Raise all your voices, we are peaceful and true

People, just show your face
Wake up and fight, fight for your rights
Let your children run free
Let them breathe sing and play, just let them be
People, just show your face
Wake up and fight, fight for your rights
Let your children run free
Let them breathe, sing, and play, just let them be
People, just show your face
Don't be afraid
